

## **FAMILY HOLIDAY FULL OF CHEERFUL MOMENTS BETWEEN GLACIER, MOUNTAIN AND LAKE**

**Fun excursions, new discoveries and shared moments of enjoyment - this is what the perfect family holiday in Zell am See-Kaprun looks like. With the summer snow experience in the ICE ARENA on the Kitzsteinhorn, Schmidolin's adventures on the panorama and family mountain Schmittenhöhe, the lidos on Lake Zell and a cool family activity programme, the region makes big and small wishes for unforgettable holidays come true.**

How many adventures fit into one day? And what is possible between waking up in the morning and sunset? The answer on a family holiday in Zell am See-Kaprun is clear: A lot! And the days can easily be too short. Because the region is known as an extra-large outdoor playground that promises fun and games for the kids, but also offers enjoyment and relaxation for the grown-ups.

Nature experiences and adventures for families are wonderfully diverse and have many surprises in store: they range from mysterious evening hikes through the mystical Sigmund Thun Gorge to llama trekking tours and banana boat rides on the shores of Lake Zell.

The panorama and family mountain Schmittenhöhe is the realm of the dragon Schmidolin: Families can look forward to lots of adventures during an expedition on the "Schmidolins Feuertaufe" (Schmidolin's Baptism of Fire) adventure trail or in the "Schmidolins Feuerstuhl" (Schmidolin's Blazing Wheels) e-motocross park.

The "Cool Kids Fun" adventure programme is particularly popular with the youngsters and is available for a whole five months: from mid-May to mid-October, children can look forward to lots of action, games and fun every day. The programme's highlights include a pirate treasure hunt on Lake Zell including slacklining and stand-up paddling, an adventure day on the farm, archery and climbing. The "Cool Kids Fun" children's programme is a bonus partner of the Zell am See-Kaprun Summer Card.

The diverse weekly programme is aimed at the whole family and includes, among other things, guided herb walks, the "Kitzsteinhorn Explorer Tour" with a national park ranger or the evening event "Klammlichter" (Gorgeous Lights) in the Sigmund Thun Gorge.

### **HOLIDAYS BETWEEN GLACIER, MOUNTAIN AND LAKE - THE TOP FAMILY TIPS 2022:**

- The **ICE ARENA** on the Kitzsteinhorn is one of the adventures waiting on the glacier and invites you to summer snowball fights and toboggan rides. It is easily accessible by mountain railway. The ascent directly from the new Kaprun Center with the **3K K-ONNECTION** and its fabulous panorama gondolas via the Maiskogel to the Kitzsteinhorn is particularly impressive.
- The Maiskogel is the ideal excursion destination for families: the starting point for the "**Maiskogel Hut Hiking Tour**" is at the upper terminus of the MK Maiskogelbahn.

The easy family tour, which is even suitable for prams in large parts, leads past four huts that invite you to rest and enjoy a traditional snack. The cable cars take you comfortably back downhill to the valley. At the foot of the Maiskogel, the "Alpine Coaster" Maisiflitzer on the Maiskogel invites you to summer tobogganing fun for the whole family.

- The **"Mystic Forest" themed hiking trail** on the Schmittenhöhe invites families to enter an enchanting natural and living environment: The trail with its eight activity stations leads from the Sonnkogel to the Schmiedhofalm, where a large children's playground awaits the youngest. The cable car takes you comfortably uphill to the Schmittenhöhe and back downhill to the valley.
- **Schmidolin's Adventure World on the Schmittenhöhe, with tricky questions, daring tests of courage and exciting tasks, is a winner with kids. Hiking in beautiful surroundings is a piece of cake on the adventure hiking trail with various climbing stations.**
- **Lake Zell and its three lidos** are the favourite meeting places for families: large sunbathing lawns and shallow water for splashing around, playgrounds and a wide range of sports facilities for the older ones, diving tower and toddler pool as well as action rides on fun tyres, banana boats or water skis and the rental of SUPs, rowing and electric boats as well as kayaks make the lake a place of wonderful leisure pleasure. With water temperatures above 20 degrees in summer, the lake is ideal for swimming and aqua fun.
