WHERE THE GLACIER MEANS FREEDOM: LET THE HAPPINESS IN!

The Kitzsteinhorn myth: more than just a glacier.

The glacier. Austria’s first glacier ski area. Surrounded by the highest peaks in Austria, it reveals itself as a fascinating world of mountains and ice at their most stupendous. Expansive, spectacular and with metres of natural snow! From autumn until early summer you can experience an Alpine ski adventure here. And a feeling of freedom at an altitude of over 3,000 metres.
Legend has it that even Empress Elisabeth looked from Schmitten mountain to the more than 30 three-thousand-metre summits. Nowadays, you don’t need to be an Austrian aristocrat to enjoy this magnificent panorama. But it will certainly make you feel like royalty!

Today, the Porsche Design gondola of the Schmitten-höhe cable car will take you to Austria’s most beautiful panorama mountain with its five descents into the valley and 77 snow-proof kilometres of piste. An exclusive service for our new king, our guests.
Let the happiness in!

Gipfelwelt 3000

Snowparks & Freeride
Virgin slopes and fascinating routes attract freeriders from around the world. The mighty Superpipe as well as many parks make this region an international meeting place for boarders. Particularly beautiful: while the experts perfect their tricks, the next generation is already practising on the mogul training runs and small ramps on Schmitten mountain. The freeriding opportunities at Kitzsteinhorn are truly spectacular! The Freeride Info Base with LVS device checkpoint provides information about routes, the avalanche situation and the weather. First the security check, and then the fun can begin.

Skipanorama Schmittenhöhe
Schmittenhöhe is the local family mountain of Zell am See. The Porsche Design gondola takes you to Austria’s most beautiful panorama mountain: around 32 three-thousand-metre peaks create a spectacular panorama for snow-proof kilometres of piste and five descents into the valley.
